

# WEEKLY INDUSTRY ANALYTICS

SEANEWS.RU SUBSCRIPTION INCLUDES:

We offer our customers the promptest industry analysis product in the market. This is not just mere words.

How do we do that?

The market development is **most dynamic**, so in our **weekly edition** we **analyze** statistic data not for the last half-year, and not even for the last quarter, but **for the last month**, you will not find a quicker reacting source of market information.

Sample the scope, the frequency and the visualization of our analytic publications that we offer to our subscribers.

Please also note the format and the infographics, which allow to grasp the essence quickly without spending much time reading into the text.

## APPENDIX 1: DETAILED WEEKLY CONTENTS

### Our core analytical product

**WEEKLY** is a weekly interactive analytical product containing data for the last month:

- ① The first issue features figures and trends for ports and stevedores of the Russian North-West region
- ② The second issue deals with the Russian South
- ③ The third issue compiles port data on the Russian Far East
- ④ The fourth issue offers cargo statistics of the Russian North

Thus, 4 consecutive **WEEKLY** issues will give you a full-scale picture of the entire Russian port industry with most up-to-date figures and trends for the last month.

### CONTAINER TRAFFIC VIA RUSSIAN PORTS ANALYSIS:

Contains figures and trends for the period from the year start through the month preceding the current Weekly issue.

- **Aggregate container traffic via RF ports:**
  - Aggregate container traffic (overall, import, export, cabotage) via the RF ports for the period under report compared to the same period last year
  - Monthly container volumes development via the RF ports for the last 6 months (overall, import, export, cabotage)
- **Aggregate container traffic via the ports of the region:**
  - Aggregate container traffic (overall, import, export, cabotage) via the ports of the region for the period under report compared to the same period last year
  - Monthly container volumes development via the ports of the region for the last 6 months (overall, import, export, cabotage)
- **Container traffic via ports of the region (in the Far East, also, via ports of sub-regions):**
  - Shares of all the ports in the aggregate container throughput via the region for the last month
  - For TOP 3 container ports of the region in the last month's rating:
    - Aggregate container traffic (overall, import, export, cabotage, transit) via the port for the period under report compared to the same period last year
    - Monthly container volumes development via the port for the last 6 months (overall, import, export, cabotage)
- **Container traffic via TOP 5 container terminals of the region:**
  - Shares of all the terminals in the aggregate container throughput via the region for the last month
  - Aggregate container throughput via the terminal (overall, import, export, cabotage, transit) for the period under report compared to the same period of the last year
  - Monthly container volumes development via the terminal for the last 6 months (overall, import, export, cabotage)

## NON-CONTAINERIZED CARGO TRAFFIC VIA RUSSIAN PORTS ANALYSIS:

Contains figures and trends for the period from the year start through the month preceding the current Weekly issue.

- **Aggregate non-containerized cargo traffic via RF ports:**
  - Aggregate cargo traffic via the RF ports (overall, import, export, transit) for the period under report compared to the same period last year
  - Shares of major cargo groups in the aggregate throughput via the RF ports for the last month
  - Monthly cargo volumes development via the RF ports (import, export, transit) for the last 6 months
  - Aggregate cargo throughput for the TOP 3 (by handling volume) cargo groups by RF ports for the period under report compared to the same period last year
  - Monthly throughput development for the TOP 3 (by handling volume) cargo groups by RF ports for the last 6 months
  - Shares of import, export, transit, cabotage in the aggregate cargo traffic via the RF ports
- **Non-containerized cargo traffic via the ports of the region:**
  - Aggregate cargo traffic via the ports of the region (overall, import, export, transit) for the period under report compared to the same period last year
  - Shares of major cargo groups in the aggregate throughput via the ports of the region for the last month
  - Monthly non-containerized cargo volumes development via the ports of the region (overall, import, export, transit) for the last 6 months
  - Major regional trend (upward/downward) compared to the same period last year for the same region and to the general trend for the entire RF port industry for the period under report
  - Aggregate cargo throughput via the TOP 3 (by handling volume) cargo groups by the ports of the region for the period under report compared to the same period last year
  - Monthly throughput development for the TOP 3 (by handling volume) cargo groups by the ports of the region for the last 6 months
- **TOP 3 non-containerized cargo groups traffic via the ports of the region analysis:**
  - Shares of all the ports of the region in the aggregate throughput of the region
  - For each of the ports in the TOP 3 (by aggregate throughput):
    - Port throughput (overall, import, export, cabotage, transit) for the period under report compared to the same period last year
    - Monthly throughput development of the port for the last 6 months
    - Monthly export, import, transit and cabotage development for the port for the last 6 months
    - Shares of the major cargo groups in the port for the last month
- **TOP 5 (by handled volume) stevedores of the region non-containerized cargo throughput analysis:**
  - Shares of all the stevedores of the region in the aggregate cargo throughput in the region
  - For each of the TOP 5 stevedores (by aggregate throughput):
    - Non-containerized cargo throughput (overall, import, export, cabotage, transit) of the stevedore for the period under report compared to the same period last year
    - Monthly aggregate cargo throughput development of the stevedore for the last 6 months
    - Monthly export, import, transit and cabotage development of the stevedore for the last 6 months
    - Shares of the major cargo groups handled by the stevedore last month
    - Additionally: most dynamically growing / drastically falling stevedores of the region (percentagewise, in terms of non-containerized cargo throughput).
